

General conditions

Partly sunny on Monday, from Tuesday on Westerly low pressure area, thus worsening weather conditions with frequent precipitations in the middle of the week.

Afternoon/Evening of Sunday 5

Changeable weather conditions, cloudiness alternating with partial clear-ups and chance of local showers or rainshowers; decreasing risk of precipitations in the evening or in the late evening. Easterly moderate winds on the plain.

Monday 6

Sky conditions: Low clouds in the morning; clear-ups alternating with partial cloudiness in the morning especially in the mountains.

Precipitations: Almost no precipitations on the plain, middle-low risk (20/49%) of isolated rainshowers in the mountains and at the foot of the mountains.

Temperatures: Steady or slightly falling temperatures on the plain, falling high temperatures and rising low temperatures in the mountains.

Winds in the mountain: Westerly/North-westerly light/moderate.

Winds in the plain: Mostly North-easterly light/moderate.

Sea conditions: Mostly choppy.

Tuesday 7

Sky conditions: At first changeable conditions, then unsettled weather in the afternoon, increasing cloudiness.

Precipitations: Isolated precipitations in the morning, more likely and widespread first of all in the western areas in the afternoon, also showers or thunderstorms.

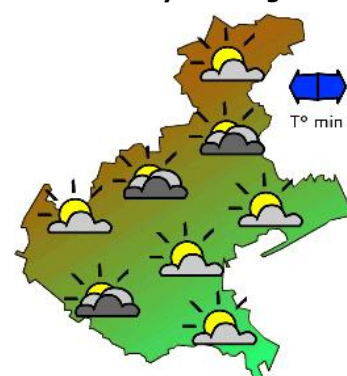

Temperatures: Steady or slightly falling.

Winds: Easterly moderate on the plain, occasionally stronger especially along the coast; stronger winds at high altitudes to South-westerly strong.

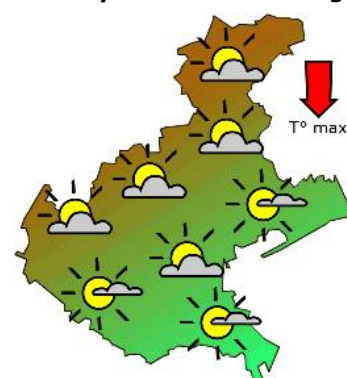

Wednesday 8

Unsettled/disturbed weather, scattered precipitations, showers or thunderstorms. Falling low temperatures and slightly rising high temperatures on the plain, rising temperatures in the mountains. South-westerly strong winds at high altitudes.
